

LOUVERS

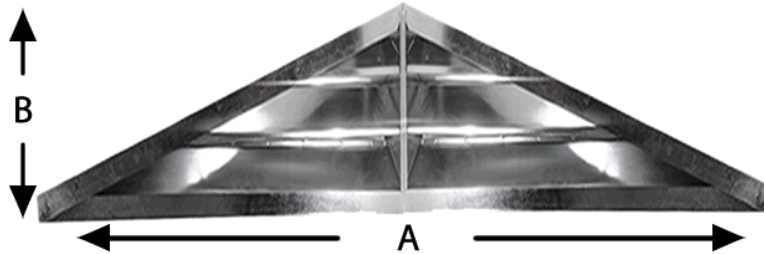

www.generalmetals.com

General Metals Triangle Gable Louver is truly the most efficient of all the attic ventilation products. Designed to be installed in the peak of a gabled roof, it utilizes the forces of nature -rising of heat, and vents it at its highest point.

ADVANTAGES: Reduces attic temperatures Lowers utility costs Stops birds and insects from entering Deflects rain Does not obstruct air flow Compliments architecture

CONSTRUCTION: Die formed & spot welded galvanized steel backed with #4 mesh hardware cloth for strength and appearance

Model TL

| PITCH X LENGTH | FREE AREA SQ. INCHES | ROUGH IN A | ROUGH IN B | APPROX. WEIGHT(LBS) |
